

*Brand new – Sack Clip*

# WeLoc Gripper 150

The image features a pair of black plastic sack clips and a pair of scissors. The sack clips are positioned diagonally across the frame, with one clip in the foreground and another slightly behind it. The scissors are placed behind the clips, with their handles pointing towards the top right. The background is a solid red color with a crumpled paper sack visible behind the tools. The text 'WeLoc Gripper 150' is overlaid in white, with 'WeLoc' and 'Gripper' in a large, bold, sans-serif font, and '150' in a slightly smaller, bold, sans-serif font. Above the main title, the text 'Brand new – Sack Clip' is written in a smaller, italicized, serif font.

Our bestseller today

## Brand new size

Our very popular WeLoc Gripper 100 has got a "Big Brother"! For many years Gripper has been the perfect tool for reclosing larger sacks and smaller BigBags used within production, helping to keep raw materials protected and to maintain a high safety standard and to follow regulations.

The new larger WeLoc Gripper 150 will cope with even bigger packages and during Pack Expo and Scanpack you have the perfect chance to see and try this expanded version

of the already popular and functional WeLoc Gripper 100. It is now released in both the standard version WeLoc Gripper PA 150 and the fully detectable version WeLoc Gripper POM 150 FD.

Thank you again for your attention and you are always welcome to contact us or any of our distributors for further information.
